

TAMMANY HALL WAS DEFEATED

Although Chief Murphy Refuses to Admit Loss of Aldermanic President

SOCIALISTS FAILED TO FULFILL PROMISE

Official Count May Be Necessary on President of Board of Alderman

New York, Nov. 5.—Complete returns of the vote for president of the board of aldermen show that Representative F. H. LaGuardia, Republican, defeated Robert L. Moran, Democratic incumbent, by 1,363 votes. An official recount will be asked for in Mr. Moran's behalf. The vote was: LaGuardia, 403,051; Moran, 401,688; James O'Neil, Socialist, 126,365.

LaGuardia, 399,296; Moran, 397,766; James O'Neil, Socialist, 124,259.

Charles F. Murphy, the Tammany leader, refused to admit early to-day that Moran had been defeated. Samuel S. Voeenig, chairman of the New York county Republican committee, was equally positive that LaGuardia had won by a small margin. He attributed the candidate's success largely to his record as an aviator during the war.

Tammany lost all three contests for seats on the supreme court bench in the first and second judicial districts.

James A. Foley, son-in-law of Leader Murphy, scored a moderately easy victory over James O'Malley, his Republican opponent for surrogate of New York county. This was about the only solace Tammany found in the result.

For Henry H. Curran, Republican, was elected president of the borough of Manhattan.

Reuben L. Haskell, Republican, was elected a county judge in Brooklyn on a "wet" platform, and Harry E. Lewis, Republican, won another term as district attorney of Kings county.

The Socialists failed to make good their claim they would poll a larger vote than they did in 1917 and were credited with little more than 10 percent of the ballots cast for aldermanic president.

One of the interesting subjects of speculation is the part played by the 563,000 registered women voters in defeating Tammany. One of the factors in the success of the Republican supreme court candidates was the support given them by William R. Hearst.

KENTUCKY ELECTED REPUBLICAN GOVERNOR

Edwin P. Morrow Has Lead of 23,579 Over Gov. Black and with Ten Counties Missing.

Louisville, Ky., Nov. 5.—With ten counties missing out of 120, unofficial returns to-day gave Edwin P. Morrow, Republican, a majority of 23,579 votes over Governor James H. Black, Democrat, in the race for governor of Kentucky. Republican state headquarters predicted that complete returns from the ten missing counties will give Morrow a total majority of 30,000 votes.

Unofficial returns from 30 counties indicate the state-wide prohibition amendment was defeated by a majority of 15,511. The vote stood: Against, 23,340; for, 9,829. Twenty-two counties favored the amendment and eight were against it. Jefferson county, which includes Louisville, cast 22,878 votes against the amendment and 7,541 for it.

Another amendment voted on was that providing for removal of police officers who fail to protect prisoners from mobs and early incomplete returns indicated it was adopted by a large majority.

The Republicans will control the lower House and the Democrats the Senate, the latter having left over.

LODGE REJOICES OVER COOLIDGE WIN

Declared Victory Is Verdict of the United States Speaking Through the People of Massachusetts.

Washington, D. C., Nov. 5.—Senator Lodge of Massachusetts, Republican leader of the Senate, issued the following statement last night through the Republican national committee: "Massachusetts has spoken. It is a national victory and means that the

morning and night. For all political purposes, the election of Coolidge is a foregone conclusion. The Republican party is the modern trend of good government in the United States."

American republic stands, and will stand, unshaken. It is the verdict of the United States speaking through the people of Massachusetts. I am proud of the people of my state who have thus upheld the governor and vindicated American principles.

PUBLIC HEALTH NURSING.

Has Been Accepted by Eight States in Conjunction With Red Cross.

The boards of health of eight states have agreed to co-operate with the American Red Cross in the development of public health nursing. In undertaking its new program of health education and protection, for which it is mobilizing its members through the third Red Cross roll-call, Nov. 2 to 11, the Red Cross proposed to the various state boards of health that they enter into an arrangement whereby one state supervising nurse, employed jointly by the board of health and the Red Cross, should develop public health nursing in each state, with the purpose of co-ordinating the two agencies so that duplication of effort and conflict of plans might be avoided. The boards of health of Connecticut, Massachusetts, New Jersey, North Carolina, Alabama, Minnesota, Utah, and Montana have already agreed to this plan, while several other states have tentatively accepted it, and nine more have it under consideration.

"In developing rural public health nursing in co-operation with the state boards," stated Miss Clara Noyes, director of department of nursing, American Red Cross, "the Red Cross has an opportunity of service which may be of inestimable value to every community which undertakes it. Nation-wide education of American women in the fundamental principles of home nursing and proper diet will mean a tremendous advance in the health of the nation, while co-operation with the state health officers and the anti-tuberculosis association means that public health nursing will receive a stimulation and added impetus which might otherwise have taken several years to accomplish and may do a great deal to hasten the day when public health nursing will be acknowledged as a state and federal responsibility."

LOWER CABOT

The birthday social for November will be held in the Congregational church Friday evening, Nov. 14. At this time will be presented, "The Old Peabody Pew," by Kate Douglas Wiggin, followed by a social hour. Refreshments will be served.

An Outworn Idea.

The "public be damned" spirit sits no more gracefully on labor than it did on plutocracy.—Boston Transcript.

BROOKFIELD

Mrs. Nancy Abbott, Who Died Oct. 31, in Poor Health Two Years.

Mrs. Nancy T. (Newton) Abbott, widow of the late Royal Abbott, died Friday evening, Oct. 31, at 11 o'clock at her late home at the Center of cerebral hemorrhage, after two years of very poor health. Her funeral was held Sunday afternoon, Nov. 2, at 2 o'clock, from the home of her son, L. K. Abbott, at Brookfield Center. Rev. James Clark officiating. There was a large gathering of relatives and friends, who deeply mourn her passing away. She leaves two sons, Irving N. Abbott of this town and Prof. Winthrop P. Abbott of Greenfield, Mass., and five grandchildren. All were present at her funeral.

Mrs. Abbott was a member of the Second Congregational church and also of the Woman's Relief corps and was always an interested and active worker in the Brookfield free public library. In all of these places she will be greatly missed.

Among those from out of town to attend the funeral were Prof. and Mrs. W. P. Abbott of Greenfield, Mass., Dr. V. C. Goodrich and Mrs. Helen Wilcox of Barre, Mr. and Mrs. Frank Ainsworth and Mr. and Mrs. Roy Ainsworth of Sharon, Dr. and Mrs. Newell of East Randolph, H. M. Gaylord, Miss Mary Gaylord and Mrs. L. M. Allis and Ray Walbridge of Randolph, and many others whose correspondence did not know.

Warren French has bought a house on Howard street in Randolph, and will take possession next spring.

Henry H. Fullam took a colt last week to New Bedford, Mass., for his son, Herbert Fullam. He returned home Monday.

Mrs. H. R. Runney, Mrs. Savilla Greene, Mrs. J. W. Yaw and Mrs. H. W. Hyde attended the district meeting of the W. R. C., which was held in Randolph last week Thursday.

Next Saturday, Nov. 8, Mrs. Goss of Montpelier, district deputy of the Woman's Relief corps for this district, will be present at our meeting to inspect the work of the corps. Dinner will be served in the small banquet room at noon.

Walter Grout has rented Mrs. Helen Wilcox's house and will soon move his family there.

Mrs. C. H. Holden, who has been away several weeks with her sisters in Providence, R. I., and Worcester, Mass., came home Thursday. Mr. Holden went to Worcester and met her there. She came home with him in her auto.

Mr. and Mrs. Currier of Windsor were guests last week of Mr. and Mrs. L. B. Wright.

Attorney M. C. Taft, accompanied by his nephew, John Martin of Alabama, was in town Friday on business.

Mr. and Mrs. Robert Hall of Lyndonville visited his parents, Mr. and Mrs. G. B. Hall, last week.

There was a good attendance and an excellent time enjoyed at the social held at the church parlors last Wednesday evening. Six dollars and five cents was cleared.

Mr. and Mrs. R. S. Wilcox entertained 30 at a Halloween party Friday evening. All present enjoyed a very pleasant occasion. Refreshments of cake and ice cream were served.

Brookfield cream entertained about 115 at a Halloween party Friday evening. A play was given, fortunes were told, dancing was indulged in, good music was furnished by the Brookfield band and refreshments were served. Everyone appeared to have an exceedingly good time.

Fatal Kisses.

According to a Philadelphia paper, two schoolgirls presented General Pershing with a bouquet of roses, with the most shocking results. "God bless you, my children, and thank you," he said, as he killed both girls.—Boston Transcript.

TO ACQUIRE GRAND TRUNK

The House of Commons at Ottawa Voted for It, 84 to 53

AMENDMENT FIXED ABOUT SHARE VALUE

It Is Proposed to Put the Matter Out to Arbitration

Ottawa, Nov. 5.—The House of Commons to-day passed the bill providing for the government acquisition of the Grand Trunk railroad by a vote of 84 to 53, a government majority of 31. The bill now goes to the Senate, which is expected to send it back to the House with an amendment providing that the value of the guaranteed shares be submitted to arbitration by the same method as the ordinary shares are in the bill as passed by the House.

WORLD'S SUGAR CROP DROPPED 14 PER CENT

The Increase in the Cuban Output Was All That Prevented an Even More Marked Decline in the Crop.

London, Nov. 5. (By the Associated Press).—A decline in the world's sugar production of about 14 per cent, as compared with the season 1913-14, was registered during 1918-19, according to figures issued by the official Board of Trade Journal. But for the increase in the Cuban output, from 2,000,000 tons in 1913-14, to an estimated 4,000,000 tons in 1918-19, the decline would have been much more serious, says the journal.

The world's production of raw cane sugar, excluding the Indian crop, which is consumed locally, rose from 7,500,000 tons in 1913-14 to 9,700,000 tons in 1918-19, an increase of 2,200,000 tons. In the case of raw beet sugar, however, production dropped from 8,900,000 tons to 4,300,000 tons, a decrease of 4,600,000 tons. On balance, therefore, there was a deficiency in the world's supply of sugar in the season just ended, compared with pre-war supplies, amounting to approximately 2,400,000 tons.

The latest reports, the journal states, indicate that for 1919-20, the world's crops are likely to fall short of those of the previous season by about 400,000 tons.

FORESTRY INCLUDED IN 14TH CENSUS

Special Force of Experts Will Have Charge of That Phase of the Census—Agricultural Statistics Will Also Be Included.

Washington, D. C., Nov. 4.—That the 14th decennial census, on which the actual enumeration work will begin Jan. 2, 1920, is to be the most important ever taken, is shown by the fact that the act of Congress providing for this census expressly increased the scope of the inquiries so as to include forestry and forest products, two subjects never covered specifically by any preceding census.

The inquiries to be made relating to population, manufactures, mines, quarries and agriculture were also extended in their scope by Congress, the keenest interest over the forthcoming census having been shown by the members of the census committee of both the House and Senate while the law was under consideration.

The statistics gathered on mining will include all oil and gas wells. Many startling developments in this important branch of the nation's resources are looked for by census officials. The figures gathered in Texas, Oklahoma and Kansas will no doubt prove to be those most eagerly sought for, as shown by inquiries already received by the census bureau.

The compilation and gathering of forestry and forest products statistics will be in charge of a special force of experts. The accurate and comprehensive figures gathered concerning this vital national resource will be much in demand, and the comparisons made with conditions existing before the war will be of great interest.

Agricultural statistics will likewise be the subject of special effort on the part of the census bureau, as the importance of farming is being realized by the average citizen far more than ever before.

A new way of washing

You just soak your clothes clean instead of the old rubbing and boiling

JUST imagine your clothes washing themselves for you overnight!

Imagine their washing themselves without any washing "machinery" whatsoever—no boiler, no wash-board, no washing machine, or suction funnel.

You just put your clothes to soak—with a new soap product.

You have been told so often of machines that would wash your clothes for you, of products that would get the dirt out without any work on your part, that the story of this new product is going to be hard for you to believe.

It is hard to believe that a simple soap product, absolutely harmless, can, just by a soaking overnight, so loosen the dirt in your clothes that when they are rinsed in the morning, all the dirt comes out.

As a matter of fact, if the overnight soaking is inconvenient, three hours soaking will accomplish the same wonderful result.

"Soaking Clothes is Certainly Easier Than Rubbing Them"

says Mrs. Terry

"When I first used Rinsol I thought if it only saved half of the usual rubbing it would be wonderful. The directions for mixing it up were easy to follow—and I got a beautiful sudsy tubful for the clothes to soak in over night. And in the morning—most of the dirt dropped right out in the Rinsol suds, as I washed the clothes up and down. One or two really ground-in spots came out like magic when I put a little dry Rinsol on the spots and rubbed lightly between my hands. Two good rinsings and the clothes were beautifully white and ready for the line at 9 o'clock instead of not till noon. There wasn't any of the exhausting work that washing had always meant before. Soaking clothes clean is certainly easier than rubbing."

Mrs. M. A. Terry, New York City.

Then make each of these up into a roll. Again make into a thin layer and roll up again. Cut each roll into two pieces, then roll again. Now put the washed beans on the flattened roll. Fold the edges over the top of the bean and fry in hot oil.

Red Bean Filling—8 cups of red beans, 1½ pounds of lard, 3 pounds of sugar. Cook the beans until soft, remove the skins by washing them through a sieve with hot water. Leave standing until bean mash settles to the bottom, then pour off water; squeeze out all moisture by pressing through a cloth. Then mix with the lard and cook long enough to make hot.

Rice Pudding—2 cups of glutinous rice, 1 cup of mashed red beans, ½ cup of sugar.

of preserved lotus hearts, ½ cup of dry raisins or dates, ½ cup of lard. Take a good size bowl and place the lotus hearts and other candied fruits in a design on the bottom. Then put in a layer of cooked rice which is mixed with ½ cup of lard and a layer of bean until the bowl is full. Place a plate over it and steam for half an hour or so. Then turn out on a hot, flat dish or plate and serve.

Chinese Dishes That Are Delicious.

It is rather unusual to find recipes for real Chinese dishes that appeal to the general American taste. The following preparations are familiar to every housewife, says the Springfield Republican, but the way in which the Chinese prepare them is not so well known. The following dishes are for four persons.

Eight Precious Porridge—½ cup of glutinous rice, 1 cup of dried lotus hearts, 30 chestnuts without hulls and testas, 16 dates. Wash the dates, chestnuts and rice and put them aside. Soak the lotus hearts in boiling water and take off the testas and core. Put the chestnuts, dates and lotus hearts into the cooking vessel and cook them with nine cups of cold water for 20 minutes. Add rice and cook for another 20 minutes, taking off the foam while cooking. Put into the chicken soup. Serve hot.

Noodles—1 cup of flour, chicken soup. First make a dough by mixing the flour with water. Knead it well. Put the dough on a table powdered with flour. Roll it, cut into narrow strips, cook the noodles in boiling water for five or seven minutes, taking off the foam while cooking. Put into the chicken soup. Serve hot.

Peanut Brittle—1 cup of sugar, 1 cup of powdered peanut oil, 1 cup of sugar and put in the peanuts. Let it cool and then cut into squares.

Thousand Layer Cakes—1 2-3 cups of lard, 1½ cups of flour, red bean filling. Mix together 2-3 cup of lard with 2 cups of flour and make into small balls. Again mix 1 cup of lard, 2½ cups of flour and 1 cup of warm water. Wrap each in the above mixture, then roll each into a thin layer.

Sir Joseph Lister

Today We Go Even Further

Fifty years ago—before Sir Joseph Lister founded antiseptic surgery—surgical operations often were followed by gangrene and blood poisoning.

Today such consequences are rare exceptions, and medical prevention has so extended the idea of sickness prevention that the great plagues of the past no longer ravage the world. Serums, vaccines, anti-toxins, sanitation—all stand guard before the citadel of health.

Now science has developed an effective agent against that general condition that underlies 90% of all human disease—constipation.

That effective agent is Nujol.

Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system. Nujol softens the food waste and encourages the intestinal muscles to do their natural duty, thus removing the cause of constipation and self-poisoning.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

The valuable health booklet—"Thirty Feet of Danger"—from Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N. Y.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented as "the same as Nujol". They may injure from imitation.
